Meet The Seniors: 
Tubaa Nadim

Interviewer: How do you feel about your last year of high school?  
Tubaa: So far from what I’ve experienced from my senior year, is that my last year is really an eye-opener. You really start to notice that a lot of things are coming to an end for you and that so much is changing around you and you really have no control over how much time you have left…  
Interviewer: Which college are you planning to go to?  
Tubaa: I haven’t decided yet, but I am mostly interested in attending Stony Brook.  
Interviewer: What are your future career plans?  
Tubaa: For my future career I’ve chosen to go into journalism/writing.  
Interviewer: Why are you planning to do journalism and writing?  
Tubaa: I’m planning to do journalism/writing for two reasons: first is that I believe there should be no cultural barrier on what your career interests are, because every individual is unique and has their own talents. Second of all I’m an introverted person who doesn’t talk a lot, and I believe that through writing I am able to express that my voice and I want to be a representation to those who suffer from the same problem. The fact that you have a voice even though it may not be vocally active.  
Interviewer: What are AP classes and are you taking them?  
Tubaa: AP means advanced placement, which are college level classes. Yes, I’m taking AP classes such as AP Gov, AP Economics, AP Bio, AP Calculus, and AP English.

The New Prayer Rugs 
By: Farha Ferdous/Grade 7

Alhamdulillah, our school has recently been gifted with new, clean prayer rugs to pray on! This is a great blessing for the students of MDQ Academy, because we were praying on the same school rugs for the last 5-6 years (and they weren’t exactly in the best condition!). Now it’s our responsibility to keep these new rugs clean and tidy! We thank Allah and the donors of the rugs for their appreciation of our school. Let’s make lots of Du’a for the parents who were very generous and kind-hearted to let us have this new gift by the will of Allah!

MDQ Academy Fundraiser At Chuck E. Cheese!  
October 28, 2016

By: Hafsah Nadim/7th Grade
6th Grade: “This week in ELA, my classmates in 6th Grade, are doing projects about the characters in the book the class read together: Maniac Magee. Some of my classmates are presenting skits, posters, and slideshows. Some skits, posters, and slideshows could be crazy, funny, and colorful! You never know! Everyone is excited and we all worked really hard! Insha’ Allah we will all get amazing grades.”
- Hasan F.

7th Grade: “Our class has been working in groups on the characters we read together in our novels for English: A Long Walk To Water. My classmates have been working hard on their group Assignments, which include, but are not limited to many posters and skits. We all want to see each other present, as we await the day of presentation when all the groups will finally be done, Insha’ Allah!”
- Farha F.

At MDQ Academy, there are after-school sports sessions every Tuesday called "Little Athletes", for kids in Grades 1-6. There, you can learn sports such as soccer, basketball, lacrosse, baseball, and kickball. You learn how to play the sport and how to get better at it to improve your sports skills and become a better athlete!
